In addition to members of the Editorial Board, the following scientific referees contributed generously of their knowledge, expertise, and time to review and to evaluate the suitability of typescripts submitted for publication to The American Journal of Ophthalmology between November 1, 1991, and October 31, 1992. The Editorial Board is ever mindful of their generous contributions to the integrity and accuracy of The Journal. If your path crosses that of one of these referees, express your appreciation.

SUBJECT INDEX

NOTE: Abstract Index follows Author Index

A

Abducens nerve

Acquired oculomotor, trochlear, and abducent cranial nerve palsies in pediatric patients, 568

Causes and prognosis in 4,278 cases of paralysis of the oculomotor, trochlear, and abducens cranial nerves (correspondence), 777

Abscess

Calcified intraocular abscess simulating retinoblastoma (letter), 227

Acetazolamide

Anaphylactic shock and death after oral intake of acetazolamide (letter), 367

Acquired immunodeficiency syndrome

Acquired immunodeficiency syndrome and ophthalmology: the first decade, 86

Bilateral panuveitis, sebopsoriasis, and secondary syphilis in a patient with acquired immunodeficiency syndrome (letter), 773

Frosted branch angiitis associated with cytomegalovirus retinitis (correspondence), 514

Glove perforations in ophthalmic surgery, 397

In situ detection of human herpesvirus 6 in retinitis associated with acquired immunodeficiency syndrome (letter), 375

Intravitreal foscarnet for cytomegalovirus retinitis in a patient with acquired immunodeficiency syndrome, 742

Ocular toxoplasmosis in human immunodeficiency virus-infected patients, 130

Ultrastructure of human immunodeficiency virus in corneal epithelial scraping (letter), 633

Xanthomonas maltophilia endophthalmitis after implantation of sustained-release ganciclovir (letter), 772

Acute retinal necrosis

Polymerase chain reaction for the detection of the Varicella-zoster genome in ocular samples from patients with acute retinal necrosis, 603

Adduction

Recession of both horizontal recti muscles in Duane's retraction syndrome with elevation and depression of the adducted eye, 311

Aging

Corneal endothelial cytoskeletal changes in F-actin with aging, diabetes, and after cytochalasin exposure, 329

Immunohistochemical and histochemical properties of surgically excised subretinal neovascular membranes in age-related macular degeneration, 464

Severe anaphylactic reaction after indocyanine green fluorescence angiography (letter), 638

Surgical excision of subfoveal neovascular membranes in age-related macular degeneration (correspondence), 241

Amblyopia

Use of a transparent film dressing to enhance compliance with occlusion therapy for amblyopia (letter), 229

Anesthesia

Paralobar anesthesia (letter), 776

Propofol and surgical contamination in strabismus surgery (letter), 635

Aneurysm

Development of a retinal artery macroaneurysm at the site of a previously detected retinal artery embolus (letter), 642

Angiography

Severe anaphylactic reaction after indocyanine green fluorescence angiography (letter), 638

Aniridia

Criteria to detect minimal expressivity within families with autosomal dominant aniridia, 700

Anisocoria

Idiopathic alternating anisocoria (letter), 509

Anterior segment

Ultrasound biomicroscopy of anterior segment structures in normal and glaucomatous eyes (correspondence), 516

Antibiotic

The solubility of antibiotic and corticosteroid combinations, 212

Apraclonidine

Apraclonidine and argon laser trabeculoplasty, 19

Apraclonidine and argon laser trabeculoplasty (correspondence), 778

Prophylactic use of apraclonidine for intraocular pressure increase after Nd:YAG capsulotomies (correspondence), 377

Aqueous

Aqueous dynamics in exfoliation syndrome, 473

Artery

Central retinal artery occlusion after neck irradiation (letter), 224

Development of a retinal artery macroaneurysm at the site of a previously detected retinal artery embolus (letter), 642

Sudden retinal manifestations of intranasal cocaine and methamphetamine abuse (correspondence), 780

Traumatic rupture of a persistent hyaloid artery (letter), 225

***Aspergillus* sp.**

Six cases of scleritis associated with systemic infection, 55

Astigmatism

Photorefractive keratectomy for severe postkeratoplasty astigmatism, 429

B**Bacteria**

Ciprofloxacin-resistant bacterial keratitis, 336

Behr's syndrome

Behr's syndrome and 3-methylglutaconic aciduria, 494

Beta-blocker

Short-term effects of levobunolol on ocular pulsatile flow, 280

Biomicroscopy

Ultrasound biomicroscopy of anterior segment structures in normal and glaucomatous eyes (correspondence), 516

Blepharoptosis

Ophthalmic involvement in myo-neuro-gastrointestinal encephalopathy syndrome, 322

***Brucella* sp.**

Brucellosis and uveitis (letter), 374

C**Capsulotomy**

Posterior capsulotomy as a complication of indirect laser photocoagulation, 600

Prophylactic use of apraclonidine for intraocular pressure increase after Nd:YAG capsulotomies (correspondence), 377

Carbachol

Therapeutic index of pilocarpine, carbachol, and timolol with nasolacrimal occlusion, 1

Cataract

Asymmetric pigmentary glaucoma resulting from cataract formation, 484

Causes of reduced visual acuity on long-term follow-up after cataract extraction in patients with uveitis and juvenile rheumatoid arthritis, 708

Ocular findings in Cockayne syndrome, 579

Progression of nonproliferative diabetic retinopathy and visual outcome after extracapsular cataract extraction and intraocular lens implantation, 448

Racial differences in the prevalence of intraocular lens implants in the United States, 667

Results of late surgery for presumed congenital cataracts, 409

Retained lens fragments after phacoemulsification manifesting as market intraocular inflammation with hypopyon, 610

Stereopsis after congenital monocular cataract extraction, 314

Superior rectus muscle overaction after cataract extraction, 72

Total detachment of Descemet's membrane after small-incision cataract extraction (letter), 365

Central retinal artery

Central retinal artery occlusion after varicella; correction, 235

Cerebro-rhino-orbital mucormycosis

Adjunctive hyperbaric oxygen in the treatment of bilateral cerebro-rhino-orbital mucormycosis, 208

Chiasm

Spontaneous visual improvement in chiasmal gliomas, 193

Children

Acquired oculomotor, trochlear, and abducent cranial nerve palsies in pediatric patients, 568

Behr's syndrome and 3-methylglutaconic aciduria, 494

Inflammatory orbital tumor as an ocular sign of a battered child (letter), 510

Recession of both horizontal recti muscles in Duane's retraction syndrome with elevation and depression of the adducted eye, 311

Results of late surgery for presumed congenital cataracts, 409

Successful therapy for trilateral retinoblastoma, 23

Successful therapy for trilateral retinoblastoma (correspondence), 646

Successful therapy for trilateral retinoblastoma (correspondence), 647

The Tokyo metropolitan home vision screening program for amblyopia in 3-year-old children, 416

Treatment of acquired intermittent horizontal jerk nystagmus with baclofen (letter), 366

***Chlamydia* sp.**

The use of polymerase chain reaction for the detection of chlamydial keratoconjunctivitis, 685

Choroid

Choroidal neovascularization occurring within a demarcation line (letter), 101

Ciliary body

Corneoscleral, ciliary body, and vitreoretinal toxicity after excessive instillation of mitomycin C (letter), 503

Ciprofloxacin

Ciprofloxacin-resistant bacterial keratitis, 336

Cocaine

Sudden retinal manifestations of intranasal cocaine and methamphetamine abuse, 158

Cockayne syndrome

Ocular findings in Cockayne syndrome, 579

Collagen shield

The solubility of antibiotic and corticosteroid combinations, 212

Coloboma

Spontaneous retinal reattachment in a patient with persistent hyperplastic primary vitreous and an optic nerve coloboma (letter), 769

Conjunctiva

Closure of fornix-based posttrabeculectomy conjunctival wound leaks with autologous fibrin glue (letter), 221

Conjunctival concretions (letter), 640

Conjunctival involvement in paraneoplastic pemphigus, 621

Recurrence of herpetic stromal keratitis after a conjunctival flap surgical procedure (letter), 231

Trabeculectomy without conjunctival incision (correspondence), 108

Conjunctivitis

Meibomian gland function and giant papillary conjunctivitis, 188

Cornea

Bilateral radiant damage to the cornea and retina after exposure to a 700-V electric discharge (letter), 775

Clinical and histopathologic changes in the host cornea after epikeratoplasty for keratoconus, 161

Community care of corneal ulcers, 531

Contralateral occipital depression related to obstetric forceps injury to the eye, 318

Corneal endothelial cytoskeletal changes in F-actin with aging, diabetes, and after cytochalasin exposure, 329

Corneal sensitivity after photorefractive keratectomy, 51

Corneoscleral, ciliary body, and vitreoretinal toxicity after excessive instillation of mitomycin C (letter), 503

11-0 Mersilene as running suture for penetrating keratoplasty, 675

Enterococcus faecalis infection in a corneal graft (letter), 233

A new, band-shaped and whorled microcystic dystrophy of the corneal epithelium, 35

Optisol corneal storage medium, 345

Paraformaldehyde-induced keratitis after photorefractive keratectomy, 339

Progress and regression of partial corneal involvement in the iridocorneal endothelial syndrome, 171

Recurrence of herpes simplex after excimer laser keratectomy (letter), 96

Retained lens fragments after phacoemulsification manifesting as market intraocular inflammation with hypopyon, 610

Total detachment of Descemet's membrane after small-incision cataract extraction (letter), 365

Ultrastructure of human immunodeficiency virus in corneal epithelial scraping (letter), 633

Visual outcome after penetrating keratoplasty with double continuous or combined interrupted and continuous suture wound closure, 63

Corrections

Central retinal artery occlusion after varicella; correction, 235

Sculpting of hydroxyapatite implants—correction (correspondence), 380

Cortical blindness

Nonbacterial thrombotic endocarditis and cortical blindness (letter), 643

Corticosteroid

The solubility of antibiotic and corticosteroid combinations, 212

Cyclophotocoagulation

The influence of exposure duration in transscleral Nd:YAG laser cyclophotocoagulation, 560

Cyst

Hereditary microphthalmia with colobomatous cyst, 30

Mucogenic glaucoma caused by an epithelial cyst of the iris stroma (letter), 222

Vitreous pulsations, relative hypotony, and retrobulbar cyst associated with a congenital optic pit (letter), 767

Cystoid macular edema

Retinal neovascularization and cystoid macular edema in punctate albescens retinopathy (letter), 507

Cytomegalovirus retinitis

Frosted branch angiitis associated with cytomegalovirus retinitis (correspondence), 514

Intravitreal foscarnet for cytomegalovirus retinitis in a patient with acquired immunodeficiency syndrome, 742

Xanthomonas maltophilia endophthalmitis after implantation of sustained-release ganciclovir (letter), 772

D

Decompression

Torsional diplopia after transantral orbital decompression and extraocular muscle surgery associated with Graves' orbitopathy (correspondence), 239

Descemet's membrane

Total detachment of Descemet's membrane after small-incision cataract extraction (letter), 365

Diabetes mellitus

Corneal endothelial cytoskeletal changes in F-actin with aging, diabetes, and after cytochalasin exposure, 329

Neuro-ophthalmic associations and complications of diabetes mellitus, 498

Prevalence and risk factors of diabetic retinopathy among noninsulin-dependent diabetic subjects, 723

Diabetic retinopathy

Cytokines in the vitreous of patients with proliferative diabetic retinopathy, 731

Efficacy of fluid-air exchange for postvitrectomy diabetic vitreous hemorrhage, 457

Prevalence and risk factors of diabetic retinopathy among noninsulin-dependent diabetic subjects, 723

Progression of nonproliferative diabetic retinopathy and visual outcome after extracapsular cataract extraction and intraocular lens implantation, 448

Diathermy

Subretinal diathermy probe (letter), 508

Dipivefrin

Therapeutic index of epinephrine and dipivefrin with nasolacrimal occlusion, 8

Diplopia

Torsional diplopia after transantral orbital decompression and extraocular muscle surgery associated with Graves' orbitopathy (correspondence), 239

Distichiasis

Localized distichiasis after tarsorrhaphy (letter), 104

Drusen

Foveal densitometry in adult-onset diffuse drusen, 149

Duane's retraction syndrome

Recession of both horizontal recti muscles in Duane's retraction syndrome with elevation and depression of the adducted eye, 311

Dystrophy

A new, band-shaped and whorled microcystic dystrophy of the corneal epithelium, 35

ABSTRACT INDEX

A

Acquired immunodeficiency syndrome

AIDS and the conundrum of job, 527

Role of HIV and CMV in the pathogenesis of retinitis and retinal vasculopathy in AIDS patients, 657

Selective loss of optic nerve β -tubulin in vincristine-induced blindness, 791

Acute retinal necrosis

Systemic antiviral drugs used in ophthalmology, 657

Acyclovir

Acyclovir. A decade later, 793

Aging

Alzheimer's disease. The amyloid cascade hypothesis, 249

Corneal arcus and cardiovascular risk factors in Asians in Singapore, 655

Mitochondrial genetics. A paradigm for aging and degenerative diseases?, 249

Allergy

Medical therapy for ocular allergy, 388

Alzheimer's disease

Alzheimer's disease. The amyloid cascade hypothesis, 249

Amyloid plaque

Alzheimer's disease. The amyloid cascade hypothesis, 249

Analgesia

Intraoperative patient-controlled analgesia. An alternative to physician administration during outpatient monitored anesthesia care, 660

Anesthesia

Biological roles of nitric oxide, 389

Current practice of cataract extraction and anaesthesia, 391

Intraoperative patient-controlled analgesia. An alternative to physician administration during outpatient monitored anesthesia care, 660

Angiography

Digital indocyanine green videoangiography and choroidal neovascularization, 789

Anhidrosis

Tonic pupil, areflexia, and segmental anhidrosis. Two additional cases of Ross syndrome and review of the literature, 391

Antigen

Superantigens in human disease, 250

Apraclonidine

Apraclonidine hydrochloride as an adjunct to timolol maleate therapy, 788

Arachnodactyly

Genetic linkage of the Marfan syndrome, ectopia lentis, and congenital contractural arachnodactyly to the fibrillin genes on chromosomes 15 and 5, 114

Artery

Presenting features and outcomes in patients undergoing temporal artery biopsy. A review of 98 patients, 791

Aspirin

Surgical bleeding associated with aspirin and non-steroidal anti-inflammatory agents, 120

B

Benedikt's syndrome

Midbrain syndromes of Benedikt, Claude, and Nothnagel. Setting the record straight, 791

Beta-blocker

Reduced ocular hypotensive effect of topical β -blockers in glaucoma patients receiving oral β -blockers, 788

Biopsy

Presenting features and outcomes in patients undergoing temporal artery biopsy. A review of 98 patients, 791

Bleb

Same-site revision of failed filtering blebs, 116

Blepharospasm

A new variant of blepharospasm, 524

Blind spot

Blind spots, 388

Botulinum toxin

Botulinum toxin treatment of supranuclear ocular motility disorders, 523

C

Carcinoma

Basal cell carcinoma in young adults, 660

Carotid

Results of a randomized controlled trial of carotid endarterectomy for asymptomatic carotid stenosis, 385

Cataract

Current practice of cataract extraction and anaesthesia, 391

Endophthalmitis following extracapsular cataract surgery. A review of 32 cases, 521

Of sight and song, 527

Phantom limbs, 391

Premedication for outpatient cataract surgery. A comparative study of intramuscular alfentanil, midazolam and placebo, 660

A prospective study of cigarette smoking and risk of cataract in men, 655

A prospective study of cigarette smoking and risk of cataract surgery in women, 655

Use of intraocular lenses in cataract surgery in developing countries, 115

Central retinal vein

Role of diabetes mellitus on the natural history of central retinal vein occlusion, 251

Children

Cortical blindness in children. Utility of flash VEPs, 386

Head injury in very young children. Mechanisms, injury types, and ophthalmologic findings in 100 hospitalized patients younger than 2 years of age, 789

Oral administration of tranexamic acid in the management of traumatic hyphema in children, 656

Preschool vision screening in pediatric practice. A study from the Pediatric Research in Office Settings (PROS) Network, 391

Reading skills and auditory processing ability in children with chronic otitis media in early childhood, 525

Should children drink before discharge from day surgery?, 251

Chlamydia sp.

A controlled trial of a single dose of azithromycin for the treatment of chlamydial urethritis and cervicitis, 793

Choroid

Digital indocyanine green videoangiography and choroidal neovascularization, 789

Cicatricial pemphigoid

Improved detection of disease progression in ocular cicatricial pemphigoid, 788

Claude's syndrome

Midbrain syndromes of Benedikt, Claude, and Nothnagel. Setting the record straight, 791

Color vision

Detection of colour vision abnormalities in uncomplicated type 1 diabetic patients with angiographically normal retinas, 657

Conjunctiva

Conjunctival impression cytology with transfer as a field-applicable indicator of vitamin A status for mass screening, 654

Impression cytology of conjunctival melanosis and melanoma, 247

Multifocal amelanotic conjunctival melanoma and acquired melanosis sine pigmento, 247

Conjunctivitis

Medical therapy for ocular allergy, 388

Cornea

Corneal arcus and cardiovascular risk factors in Asians in Singapore, 655

Corneal storage medium preservation with defensins, 787

Corneal topographic changes over time after radial keratotomy, 787

Evaluation of corneal topography, 787

Improved detection of disease progression in ocular cicatricial pemphigoid, 788

Wound healing of the ocular surface, 252

Cortex

Phantom limbs, 391

Cromolyn sodium

Alternative solution for Opticrom, 654

Cyclosporine

Risk factors for cyclosporine-induced nephropathy in patients with autoimmune diseases, 390

Cytomegalovirus

Restoration of viral immunity in immunodeficient humans by the adoptive transfer of T cell clones, 526

Role of HIV and CMV in the pathogenesis of retinitis and retinal vasculopathy in AIDS patients, 657

Systemic antiviral drugs used in ophthalmology, 657

D

Diabetes mellitus

Detection of colour vision abnormalities in uncomplicated type 1 diabetic patients with angiographically normal retinas, 657

Risk factors for cyclosporine-induced nephropathy in patients with autoimmune diseases, 390

Role of diabetes mellitus on the natural history of central retinal vein occlusion, 251

Disk

Platelet aggregation, disc haemorrhage and progressive loss of visual fields in glaucoma. A seven year follow-up on glaucoma, 248

Donor

Corneal storage medium preservation with defensins, 787

Droperidol

A double-blinded comparison of metoclopramide and droperidol for prevention of emesis following strabismus surgery, 119

E

Ectopia lentis

Genetic linkage of the Marfan syndrome, ectopia lentis, and congenital contractural arachnodactyly to the fibrillin genes on chromosomes 15 and 5, 114

Electrocautery

The mutagenicity of electrocautery smoke, 247

Endarterectomy

Results of a randomized controlled trial of carotid endarterectomy for asymptomatic carotid stenosis, 385

Endophthalmitis

Endophthalmitis following extracapsular cataract surgery. A review of 32 cases, 521

Epidermal growth factor

Wound healing of the ocular surface, 252

Evolution

Facial palsy and infection. The unfolding story, 114

Midbrain syndromes of Benedikt, Claude, and Nothnagel. Setting the record straight, 791

Perimetry

Factors influencing normal perimetric thresholds obtained using the Humphrey Field Analyzer, 115

Static versus kinetic testing in the nasal peripheral field in patients with glaucoma, 115

Platelet

Circadian variation in platelet function in healthy volunteers, 248

Pterygium

Pterygium treated with excision and postoperative beta irradiation, 521

Pupil

Computerized analysis of pupillograms in studies of alertness, 118

Pupillary escape, 522

Tonic pupil, areflexia, and segmental anhidrosis. Two additional cases of Ross syndrome and review of the literature, 391

R

Radial keratotomy

Corneal topographic changes over time after radial keratotomy, 787

Radiation

Precision radiation therapy for optic nerve sheath meningiomas, 387

Present status of eyelid phototherapy. Clinical efficacy and transmittance of ultraviolet and visible radiation through human eyelids, 250

Pterygium treated with excision and postoperative beta irradiation, 521

Uveal melanoma. Therapeutic consequences of doubling times and irradiation results. A review, 385

Reiter's syndrome

An acute remission of Reiter's syndrome in male patients treated with bromocriptine, 525

Retina

Detection of colour vision abnormalities in uncomplicated type 1 diabetic patients with angiographically normal retinas, 657

Light and retinopathy of prematurity. Does retinal location offer a clue?, 385

Retinal pigment epithelium

Congenital hypertrophy of retinal pigment epithelium in patients with colonic polyps associated with cancer family syndrome, 789

Retinoblastoma

Sinonasal primitive neuroectodermal tumor arising in a long-term survivor of heritable unilateral retinoblastoma, 658

Retinopathy

Risk of early-onset proliferative retinopathy in IDDM is closely related to cardiovascular autonomic neuropathy, 252

Retinopathy of prematurity

A cohort study of transcutaneous oxygen tension and the incidence and severity of retinopathy of prematurity, 248

Light and retinopathy of prematurity. Does retinal location offer a clue?, 385

Of sight and song, 527

Retinopathy of prematurity, 249

S

Sjögren's syndrome

Risk factors for cyclosporine-induced nephropathy in patients with autoimmune diseases, 390

Staphylococcus sp.

Endophthalmitis following extracapsular cataract surgery. A review of 32 cases, 521

Strabismus

Aetiology and management of the 'detached' rectus muscle, 253

A double-blinded comparison of metoclopramide and droperidol for prevention of emesis following strabismus surgery, 119

Surgery

Should children drink before discharge from day surgery?, 251

T

T cell

Restoration of viral immunity in immunodeficient humans by the adoptive transfer of T cell clones, 526

Superantigens in human disease, 250

Terson's syndrome

Terson's syndrome. A reversible cause of blindness following subarachnoid hemorrhage, 388

Timolol

Apraclonidine hydrochloride as an adjunct to timolol maleate therapy, 788

Trabeculectomy

Long-term post trabeculectomy intraocular pressures, 522

Trigeminal nerve

Reconstruction of the third through sixth cranial nerves during cavernous sinus surgery, 523

Trochlear nerve

Reconstruction of the third through sixth cranial nerves during cavernous sinus surgery, 523

Tumor

The brow slide. A technique for the aesthetic treatment of eyebrow tumors, 120

Case records of the Massachusetts General Hospital (Case 21-1992), 388

In vivo gene transfer with retroviral vector-producer cells for treatment of experimental brain tumors, 390

Interferon alfa-2a therapy for life-threatening hemangiomas of infancy, 389

Meningiomas are not significantly associated with breast cancer, 658

Of sight and song, 527

Precision radiation therapy for optic nerve sheath meningiomas, 387

Sinonasal primitive neuroectodermal tumor arising in a long-term survivor of heritable unilateral retinoblastoma, 658

U

Ultraviolet

Present status of eyelid phototherapy. Clinical efficacy and transmittance of ultraviolet and visible radiation through human eyelids, 250

Scotopic spectral sensitivity of phakic and aphakic observers extending into the near ultraviolet, 656

Uvea

Uveal melanoma. Therapeutic consequences of doubling times and irradiation results. A review, 385

Uveitis

Risk factors for cyclosporine-induced nephropathy in patients with autoimmune diseases, 390

Uveitis and systemic disease, 114

V**Varicella-zoster**

Acyclovir. A decade later, 793

Vincristine

Selective loss of optic nerve β -tubulin in vincristine-induced blindness, 791

Vision

Blind spots, 388

Phantom limbs, 391

Vision screening

Preschool vision screening in pediatric practice. A study from the Pediatric Research in Office Settings (PROS) Network, 391

Visual acuity

Case records of the Massachusetts General Hospital (Case 21-1992), 388

Visual field

Platelet aggregation, disc haemorrhage and progressive loss of visual fields in glaucoma. A seven year follow-up on glaucoma, 248

Postural disturbances due to homonymous hemianopic visual ataxia, 386

Visual system

The visual image in mind and brain, 661

Whiplash and its effect on the visual system, 790

Visual-evoked potential

Cortical blindness in children. Utility of flash VEPs, 386

Vitamin

Conjunctival impression cytology with transfer as a field-applicable indicator of vitamin A status for mass screening, 654

Vitreous

Terson's syndrome. A reversible cause of blindness following subarachnoid hemorrhage, 388

W**Women**

A prospective study of cigarette smoking and risk of cataract surgery in women, 655
